

Checklist for research activities

I confirmed all of the following check items related to my research activities at the graduate school.

Date: _____ (Year) _____ (Month) _____ (Day)

Student : (Signature) _____

(1) Regarding the acquisition, preservation, processing, evaluation, and interpretation of research data that I obtained through research activities and their description and discussion in papers (already published or submitted),

evidences and procedures of these research activities are appropriately recorded in laboratory notebook(s) in a way that a third party can confirm these records.

based on this (these) laboratory notebook(s), the adequacy of the conduct of research has been approved by the supervisor.

(2) Regarding the acquisition, preservation, processing, evaluation, and the interpretation of research data that I obtained through collaborative research activities and their description and discussion in co-authored papers (already published or submitted),

evidences and procedures of these research activities are appropriately recorded in laboratory notebook(s) in a way that a third party can confirm the adequacy of the conduct of research.

I do not have such collaborative research activities.

I confirmed that all of the above check items related to student research activities were conducted adequately at the graduate school in this semester.

Date: _____ (Year) _____ (Month) _____ (Day)

Supervisor : (Signature) _____

※Checklist must be submitted to the Course Director every semester.
