

DETAILED REGULATIONS OF CURRICULUM GUIDELINES  
 For  
 The Integrated Interdisciplinary Health Care Graduate Program in English  
 Graduate School of Medical Nutrition,  
 Tokushima University

(General Regulations)

1. This detailed regulations stipulate important terms for the curriculum of the Integrated Interdisciplinary Health Care Graduate Program in English (referred as “THE PROGRAM” hereafter), which is offered by the Graduate School of Medical Nutrition, Tokushima University , based on the Clause 2, Article 3 of the Regulations of the Graduate School of Medical Nutrition (referred as “THE SCHOOL REGULATIONS” hereafter).

(Educational Method)

2. In THE PROGRAM, education is provided by means of classes per subject and research instruction.

(Subjects)

3. Subjects are divided into compulsory subjects and elective subjects.

②Subjects and the number of credits from which students can earn are listed in the attachment.

(Subject Registration)

4. Students must earn the number of credits stipulated below.

School	Course	Compulsory	Elective	Total
Graduate School of Medical Nutrition	Doctor	6 credits	4 credits or more	10 credits or more

②Students must receive advice from the supervising professor on the choice of subjects in advance.

③Subjects offered by other graduate schools can be taken when the Graduate School of Medical Nutrition recognizes the subjects to be effective for students.

④The credits acquired from subjects in other schools are treated as ones from elective subjects.

(Research Instruction)

5. Research instruction is provided for research activities and dissertation writing which are based on a theme assigned by the supervising professor.

②Students who wish to receive the research instruction must have a preliminary guidance from the supervising professor.

(Grades)

6. Academic performance in each subject is to be evaluated using the following system of letter grades:

Letter Grade	Score Range	Evaluation Criterion
S	90-100	Full attainment of the goal of the subject and excellent performance
A	80-89	Good attainment of the goal of the subject
B	70-79	Adequate attainment of the goal of the subject
C	60-69	Minimal attainment of the goal of the subject
D	59 and below	Unsatisfactory attainment of the goal of the subject; no course credit earned towards the degree (fail)

(Miscellaneous)

7. Other issues which are not stipulated in this detailed regulation shall be treated according to THE SCHOOL REGULATIONS.

② Any difference or disputes concerning the interpretation, implementation or application of this detailed regulations shall be settled by the decision of the board of professors of the Graduate School of Medical Nutrition.
