

2023

Tokushima University

Graduate School of Medical Nutrition

Application Guidelines for Master Course

(For General / Employed / Privately-Funded Foreign Students)

Tokushima University

2023 Master Course of Graduate School of Medical Nutrition, Tokushima University
Application Guidelines for Primary Admission

In the Graduate School of Medical Nutrition, we make efforts to train professionals who can be active in their fields (medical service and local society or industry) and researchers for educational research institutions. We give lectures of extensive education through teaching human nutrition including basic life science and various knowledge of medical care to students and also try to do research so that they can lead their field and contribute to society. We have a goal of contributing to the nutrition field through achievements of research to train students to contribute to society.

<Admission Policy of Department of Medical Nutrition, Graduate School of Medical Nutrition>

We admit those who have sufficient and high technical knowledge based on life science and medicine and want to contribute to the efforts of improving eating habits in society while maintaining health quality.

- Students who want to become a registered dietitian of clinical management and have high technical knowledge and technique based on present medical science.
- Students who plan nutritional policies to contribute to society and globally.
- Students who are active in research and institutions of education in the nutrition field.
